

QUANTITATIVE BYTES

Software Developer — Youtuber

Profile

Quantitative Bytes is a YouTube channel dedicated to the art of scientific computing with high quality, in-depth tutorials on variety of topics centred around practical implementation of algorithms and ideas

Contact

Tel: XXX XXX XXX
Email: docker@brotonmail.com
LinkedIn: darkervibes
Youtube: quantitative bytes

Expertise

- C++, Matlab, Python
- 2D/3D image processing
- Excellent communicator
- Making excellent Youtube content

Interests

Quantitative Bytes, Youtube channel, Hiking

Education

- **Yet another University**
A higher level degree 2004 - 2009
I did some stuff as I will write about it here because it could be interesting for people. I think its a good idea to provide some extra details from atleast your latest educational activities
- **Another University**
A Master's degree 2003 - 2004
I did my masters at this university
- **University**
A Bachelor's degree 1999 - 2003
I did Bachelor's here

Experience

- **Youtube Content Creator**
Quantitative Bytes Youtube Channel 2019 - Present In my spare time I run the Quantitative Bytes Youtube Channel. I create educational content consisting of high quality , in-depth tutorials on topics related to scientific computing with an emphasis on practical implementation. I mostly focus on the development of C++ and Python.
- **Full time Job that pays the bill** *Some organization 2015-present*
Doing stuff so that I can pay the bills
- **Membership of Some committe** *Another Organization 2013-2015* Organizing stuff and making awesome things happen

Skills

Software Development

- Expert Matlab developer with 20+ years of experience including development and delivery of complex GUI based solutions.
- Experienced software developer working mainly in C++ and Python. SKilled at algorithm development and implementation. I run the Quantitaive Bytes YouTube channel as a platform to share my expertise.
